I program in my free time and plan to make a side job out of it, while simultaneously pursuing a life in service to God through the ministry.

EDUCATION

Planning on going to Boyce College, KY, for a Bachelor of Arts in Biblical and Theological Studies and a Master's in Divinity.

Classes to be started in 2026, degree to be obtained in 2031.

- Pursuing Biblical Counseling Certification through ACBC
 - Self-taught to program in 7 programming languages
 - I have worked with computer and mobile device hardware since childhood
-

EXPERIENCE

Independent Programmer | Remote Work

2024 – Present

- Provided a variety of services, from debugging to scripting entire games.
- Various platforms, including but not limited to, Roblox, Unity, and Unreal Engine.
- I managed my own online store, from branding to products.

Lessons Learned

- Learned the value of user feedback and iteration
 - Learned the value of open-mindedness and understanding an idea before condemning it
 - Learned how to deal with people through customer service
 - Learned the value of user feedback and iteration
 - Learned the value of persistence to keep going when things get hard
 - Learned how to use creative solutions to fix various problems
 - Learned how to collaborate with others and evenly distribute workloads
 - Learned and am learning how to explain programming to people who are new to it
 - Learned the value clear and concise communication between a service provider and client
-
